Notes...

- No station ID breaks are taken, affiliate build them into their format after the :57:50 break ends
- Local breaks contain an extra two seconds for affiliates to insert a local station liner
- No end of game is sent as this is an exact timed format, not time variables like a live game
- If Sports Nightly is abbreviated due to a live game, details are noted within the affiliate online calendar
- Times shown with a tilde ~ are approximate and will float depending on program content
- All local breaks are triggered by contact closure #1
